

M650[®]

Central Ballot Tabulator

Certified to meet all Federal Voting Systems Standards

ES&S' Model 650 (M650) is an easy-to-use, high-speed ballot tabulator that supports a full range of jurisdiction sizes and ballot complexities. The M650 is perfect for absentee ballot tabulation. Its advanced optical mark read (OMR) scanning technology securely processes a variety of ballot lengths at a speed of more than 300 ballots per minute.

Ideal for Large Jurisdictions

The M650 is a perfect solution for jurisdictions with many precincts and multiple ballot types per voter. M650 supports up to:

- 1,640 precincts
- 30 parties
- 300 candidates per contest
- 500 contests
- 30 districts per precinct

M650 Features & Benefits

Supports Multiple Ballot Lengths

The straight-path design of the M650 central ballot tabulator accommodates ballot lengths ranging from 14 to 19 inches. Infrared light is beamed onto the ballot to recognize and count marks. An added security feature is a specialty ink that only the M650 can read, preventing counterfeit ballots from being counted. The output hopper can hold 400 ballots and is equipped with a slant tray to keep counted ballots orderly.

Simple Report Generation

The M650 reporting system is so easy that with just a push of a button, election officials can print grand total, precinct-level, and audit reports. Custom reports are available through Unity Election Report Manager.

Advanced Memory Capability

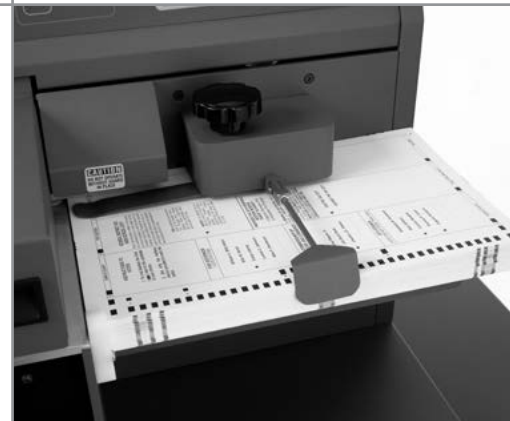

Equipped with an internal recovery subsystem, the M650 provides reliable data retention in the event of a power failure. Additionally, data can be saved to a Zip drive for external storage or for an efficient transfer of large data files to the Election Report Manager.

Uncomplicated Display Panel

The easily operated push-button control panel features an 80-character LED message window display that easily guides operators through system operation.

Maintain Ballot Integrity

Automatically, the M650 alerts the operator of over-vote, blank, write-in and damaged ballots, preserving ballot integrity and voter intent.

maintaining voter confidence. enhancing the voter experience
