

AccuVote®-OS

Precinct Optical Scanner

Reliable Optical Scan System

ES&S' AccuVote-OS is a precinct and central optical scanner which brings a proven level of accuracy and simplicity to conducting elections. The system uses robust, integrated components to streamline and simplify the entire election process.

AccuVote-OS offers

- Simple and straight-through ballot read path
- Clear, distinct, and complete audit trail to confirm election results
- Internal battery as an uninterruptible backup power supply should an unexpected power failure occur
- Flexibility for use in precinct and central count environments

experience
reliability
security
innovation

Main Benefits

The AccuVote-OS tabulator accurately processes precinct ballots on Election Day and allows for instant tabulation results to be transmitted to a host computer at Election Central.

Proven Performance

The reliable AccuVote-OS has provided accurate results for more than 900 election jurisdictions throughout North America.

Compact Design

The AccuVote-OS is a durable tabulator that requires minimal space and is easy to move, weighing less than 14 pounds.

Minimal Training

Poll workers are able to set up and monitor elections with minimal training and no computer expertise.

On-Site Ballot Processing

When used as a precinct scanner, voters maintain full autonomy as they are the only people to touch ballots after they are issued.

AccuVote-OS Ballot Box

- Securely contains ballots after processing
- A deflector mechanism separates write-in ballots from other ballots
- Stacks up to three levels high for storage
- The AccuVote-OS locks into the ballot box ensuring ballots are deposited securely

Key Features

- Uses paper ballots to maintain physical records of votes and to accommodate traditional recounting procedures
- Provides over-vote and under-vote protection through programming that automatically returns the ballot to the voter with clear message stating why it was not accepted
- Ballot layout and formatting is adaptable, minimizing print complications and reducing mailing costs
- Directly transmits precinct results via modem from polling places to a host computer for jurisdiction-wide results

maintaining voter confidence. enhancing the voting experience.
