ExpressPoll®
Electronic Pollbook

ExpressPoll includes many security features that allow all aspects of the solution to be protected.

PHYSICAL AND SYSTEM ACCESS CONTROLS

- ExpressPoll is a hardened single-use device.

- The device's case can be sealed to ensure the correct chain of custody is followed when accessing the device.

- ExpressPoll uses role-based security and can assign different user access levels, including system administrator, polling location supervisor and poll worker.

- ExpressPoll has optional redundant data storage.

- If an ExpressPoll is unlawfully removed from a polling location, election officials can protect data from the unit remotely.

SECURE DATA CONTROLS

- All data used on the tablet is secured with strong FIPS-compliant encryption.

- Data transferred between pollbooks is strongly encrypted.

- If optional host server is used, all data transferred between the ExpressPoll and the host server is strongly encrypted.
