

ExpressVote®

Universal Voting System

Prevents overvoting

The intuitive interface also alerts voters to ballot exceptions, like undervotes.

Easier-to-read ballots

Visual aids include high contrast and zoom functionality.

Multilingual

Supports any language in audio and 12+ languages in text.

ADA-friendly

The front access panel provides ports for headphones and accessibility devices.

Simple activation

The voter inserts a card to activate the voting session. After voting is complete, the vote summary card is dispensed for voter review.

A versatile solution

- Vote centers
- Polling places

- Early voting
- Election Day

Together with ExpressPoll® electronic pollbook and the ExpressVote® Activation Card Printer:

- Quickly check in voters and serve up to 15,000 different ballot styles. No more picking and pulling ballots or wasting pre-printed stock. Voters get in and out faster.
- Increases the accuracy of identifying voters and their ballot style by searching for them by name, date of birth or voter ID.

Easy election management

- Reduces costs by eliminating the need for printing and storing traditional pre-printed paper ballots.
- Simplifies post-election management because there are no unclear marks to adjudicate. Prevents overvotes and alerts voters to ballot exceptions, like undervotes.
- Produces a voter-verifiable paper record that is scanned, tabulated and saved for auditing purposes.
- Prevents poll workers from giving voters the wrong ballot style since they don't need to pick and pull ballots.
- Maximizes your investment because ExpressVote can be used many ways — in polling places and vote centers, during early voting and on Election Day.

A great experience for voters

- Fully compliant with the Americans with Disabilities Act (ADA), ExpressVote enables all eligible voters to make their selections privately and independently.
- Improves voter confidence because the interface prevents them from overvoting and alerts them to ballot exceptions, like undervotes.
- In assistive mode, with headphones, offers ability for reading back the voter's selections before printing the vote summary card.
- Provides voters the opportunity to review their selections twice before tabulation — on the summary screen and on the printed card.

Poll workers love it

- Shorter Election Day for poll workers — six steps to open and two to close — so they don't need to arrive as early or stay as late.
- Small, lightweight and easy to move and store.
- No ink to replace on Election Day.

Security you can count on®

ExpressVote offers so many security features, we couldn't include them all here. To learn more about how we protect our systems and data, visit essvote.com/feature/security.

“Switching to ExpressVote in 2016 and transitioning to vote centers in 2019 — it's been an easy transition for staff and poll workers.”

“Marion County voters can vote faster, easier and anywhere.”

Myla A. Eldridge
Marion County, IN, County Clerk
