

DS950[®]

High-Speed Scanner and Tabulator

No rescanning

If scanning is interrupted, there's no need to rescan all the ballots. Green lights indicate a ballot has been tabulated and red lights indicate it has not been tabulated.

Less adjudication

Intelligent Mark Recognition (IMR[®]) and Positive Target Recognition & Alignment Compensation (PTRAC[®]) technologies reduce the number of ballots requiring time-consuming manual adjudication.

Easy to use

Touch-screen interface walks the user through the tabulation process step by step. Monitor position is adjustable for different heights and convenient storage.

Customizable, full-speed sorting

No scanning interruptions for damaged ballots or ballots with exceptions. Sorts ballots into:

- Requires further review
- Write-ins
- Counted

Superior ballot feeding

Smart Pick technology auto-adjusts reverse belt tension, reducing the opportunity for misfeeds.

Advanced ballot control

Input tray friction pad and output tray advanced ballot guide engineering offer improved ballot control.

Complete ballot control from start to finish

Let the DS950 handle scanning, separating and sorting ballots all without missing a beat. All ES&S tabulators scan ballots in any orientation – no need to make sure ballots are face-up and top-edge first before scanning.

Process more ballots in less time

What you *don't* get with commercial-off-the-shelf (COTS) tabulators:

- **Purpose-built equipment.** Election experts designed ES&S tabulators specifically for elections.
- **Fewer scanning interruptions.** ES&S tabulators scan and tabulate previously folded and damaged ballots.
- **Customizable sorting.** ES&S tabulators allow for user-definable, real-time sorting, including both physical and digital ballot management.
- **Longer product life.** ES&S products are engineered with industrial-grade components, ensuring a 5-7 year production and service parts supply. Our parts manufacturers are dedicated to maintaining form, fit and functional equivalents when an inevitable change comes. This allows ES&S to support our products typically 10+ years.
